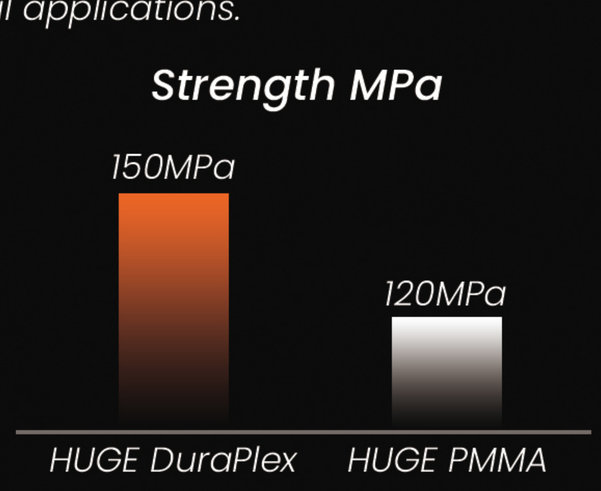
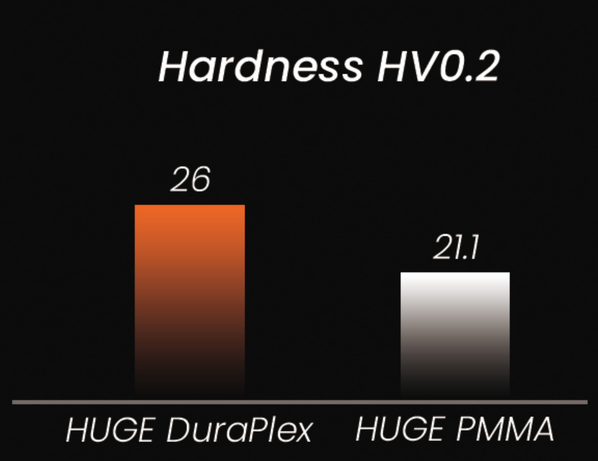
# HUGE NEW PRODUCT LAUNCH

## Why Choose DuraPlex?

### 1. Enhanced Hardness & Strength

*DuraPlex delivers exceptional mechanical properties, ensuring long-lasting performance for even the most demanding dental applications.*





### 2. Superior Wear Resistance

*Engineered to withstand daily wear and tear, DuraPlex maintains its integrity and appearance over time, reducing the need for frequent replacements.*

*Wear-resistant weight loss ratio%*
*(84H, approx. 100,000 cycles)*

### 3. Seamless Integration with PMMA Systems

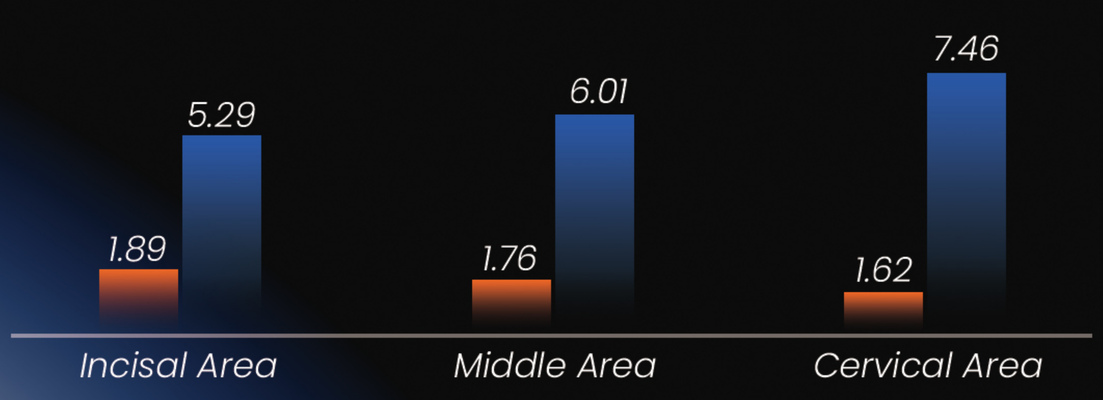
*Unlike other materials on the market, DuraPlex seamlessly integrates with PMMA-based products, enhancing their performance without compromising quality.*

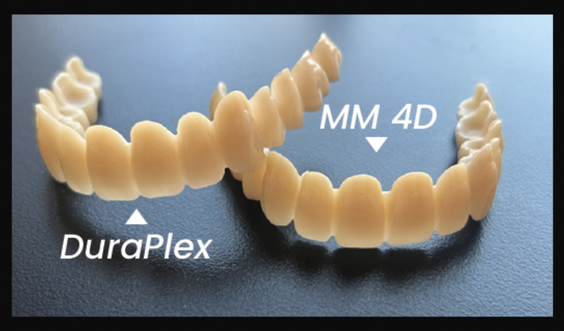
### 4. Stain Resistance You Can Trust

*DuraPlex retains the high-quality stain resistance of PMMA, ensuring a natural, aesthetically pleasing finish that your patients will love.*

### 5. True Color System Compatibility

*DuraPlex is fully compatible with the True Color System, offering perfect shade matching with MM4D zirconia shades. This makes it the ideal choice for full-arch implant restorations, delivering unmatched aesthetic results.*





Same type of restoration, zirconia (undyed), resin blocks (polished only), enabling the combined use of Zirconia, PMMA and other products.

**DuraPlex: Stronger. Smarter. Better.**
