Firing Paste

HUGE

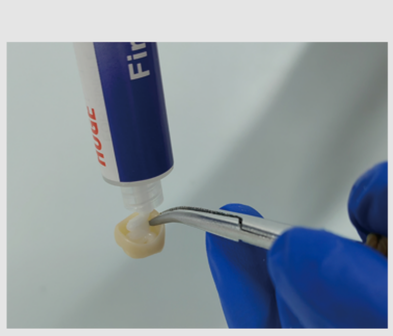
— Small Support, Great Protection

NEW *Product*

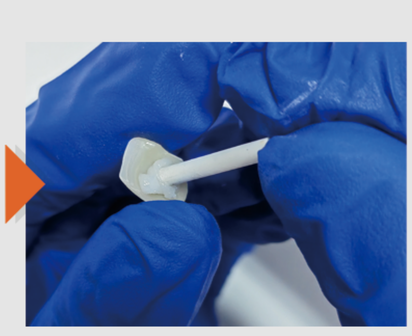
FDA listed | CE

Specification: 10mL

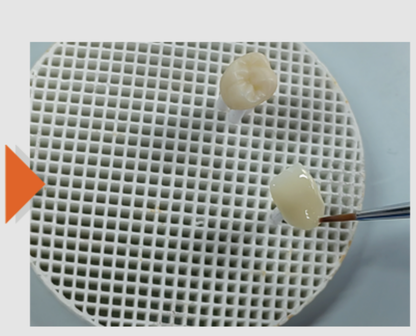
HUGE Firing Paste is a High-performance, Ready-to-use material for the fast and easy production of individual firing trays for a wide range of ceramic and zirconia restorations. ITS smooth, creamy consistency ensures stability and protection during high-temperature firing processes, preventing deformation, displacement, or discoloration of the restoration.



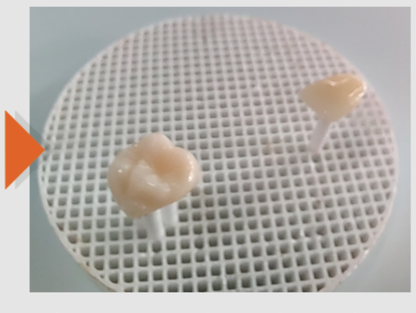
Apply to the inner surface / Apply to the pin top.



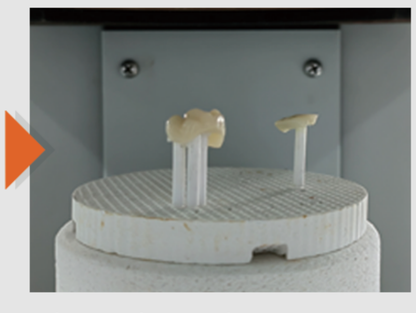
Insert the sintering pin into the crown.



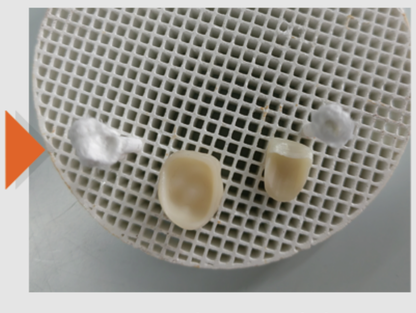
Stain and glaze the restoration surface.



Place on the sintering tray.



Place into the porcelain furnace.



Remove the residue.

Note:

Only apply a soybean-sized amount each time. The firing paste must not come into contact with the glazed surface of the restoration, otherwise, it will affect staining and glazing.

Function Highlights

- ***Smooth Application***
- ***Heat Stability***
- ***Residue-Free Removal***
- ***Strong Support***
- ***Preserved Aesthetics***
- ***Certified & Reliable***

Easy to apply and remove, *it is a* ***must-have*** *laboratory product that truly balances performance and cost-effectiveness.*
